This unit has 4 activities and a book about this holiday.

The unit is separated into 2 files, one in color and one in black and white.

Updated every August

A silhouette of a construction worker in a hard hat and work clothes, standing on a construction site and pouring material from a shovel. In the background, another worker is visible near a piece of machinery.

But how did Labor day even start or become a holiday in the first place?

Earlier that year, there had been a large number of workers for the railroad in Chicago who refused to go back to work because it was so unsafe.

This unit contains 23 page book all about how Labor Day became a holiday.

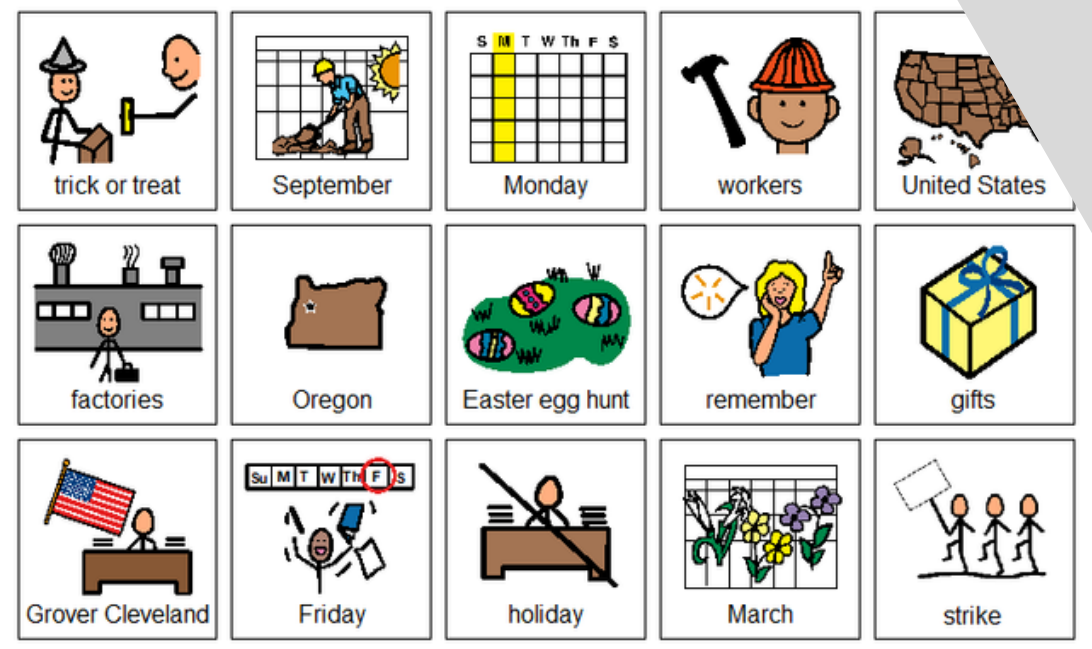

It comes in a PowerPoint version as well as a movie/mp4 file (so you don't have to print it out.)

This unit comes with a vocabulary board.

Vocabulary boards are great for ALL students to assist with participation and engagement in group discussions.

Tips on how to use in the unit!!

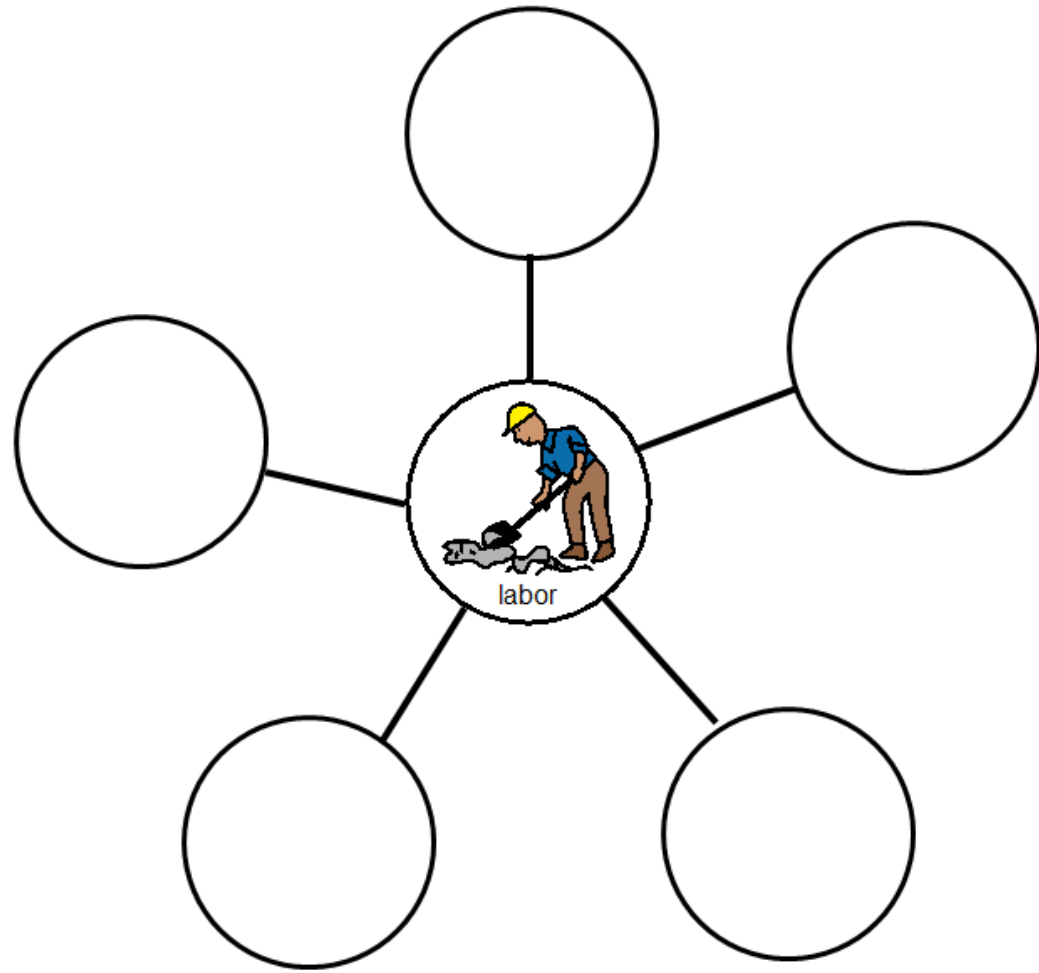

There is 1 circle map on style.

Circle maps are a great way for students to see the concept at a glance. There are 2 versions:

- One is errorless
- One has wrong answers mixed in students will have to set aside

What does labor mean?

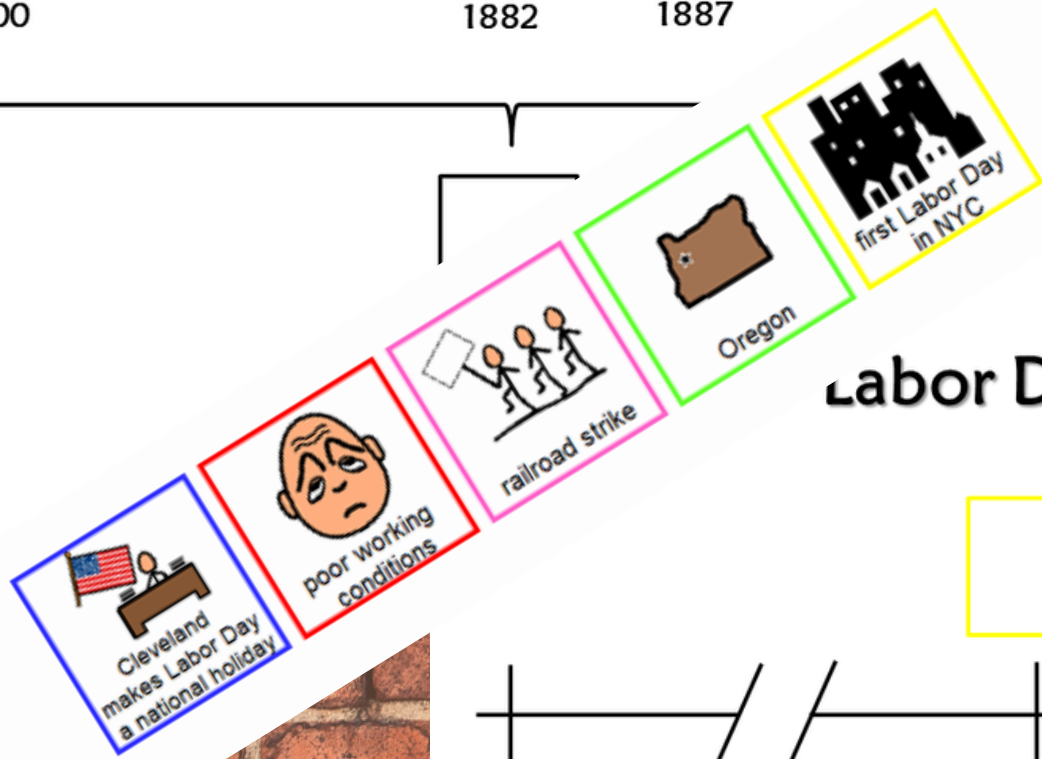

There is a word map for students to learn what the word "labor" means.

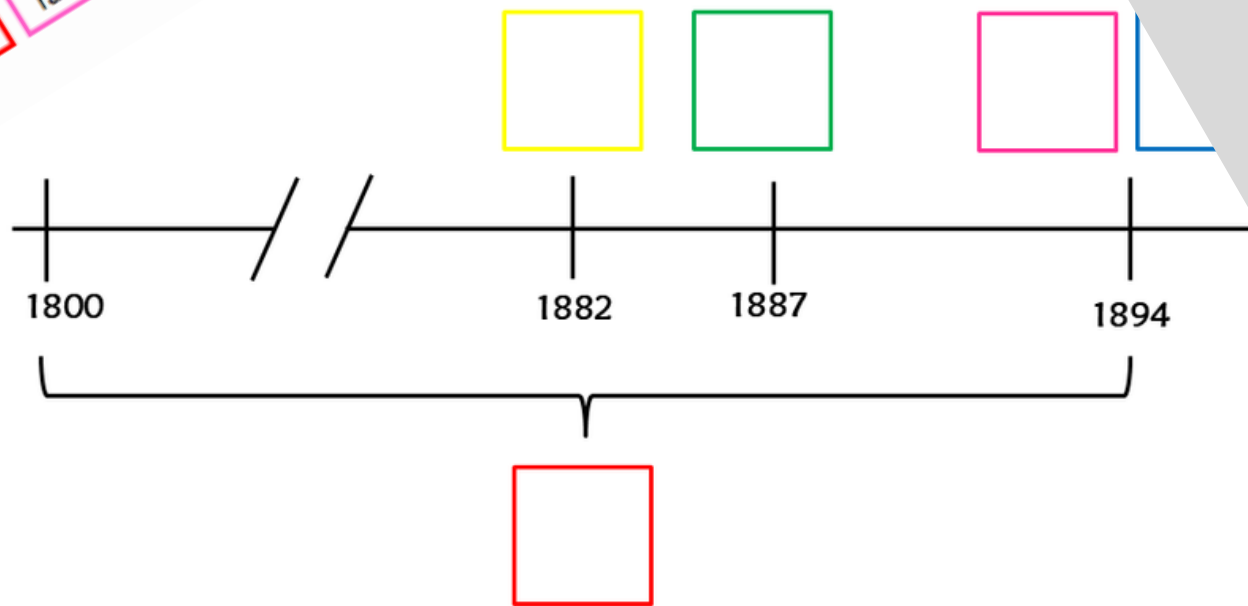

This is an errorless activity.

Labor Day Timeline

Labor Day Timeline

There is a timeline in this unit. It covers just the big events leading up to President Cleveland declaring Labor Day a national holiday. There is a color coded version included.
