Day 3

The paper plate game gets kids up and moving around.

Day 4

Rice Rain Stick

- Unlike some of my other crafts, this requires more assistance from the teacher due to fine motor requirements. However, there are specific parts students should and can do independently.
- This craft also addresses the sensory needs many of our students have.
- You will need
 - Paper towel tube
 - Aluminum foil
 - Wax paper
 - Rubber bands
 - Rice
 - Stickers
- Teacher directions
 - Cut 2 circles of wax paper that is at least twice the diameter of the paper tube
 - Attach one circle to bottom of tube so it wraps up the side using rubber band
 - Give students 3 pieces of aluminum foil that is about 6 inches long
 - Scrunch up foil into a ball
 - Place loosely inside the tube
 - Have students pour rice into tube after aluminum foil is placed inside
 - Attach second circle of wax paper to top as you did on bottom
 - Decorate with stickers

Each week has a craft that is specifically designed so students can do much of it independently.

Day 5

Root beer Floats

- Preparation
 - Print out ingredient labels and affix to ingredients prior to lesson
 - Depending on the learning level of your students you can either pre-measure the ingredients so they are just dumping in what is in the containers, **or**
 - Allow your students to measure out the correct amount (good for older students especially)
 - Review and address any food allergies
 - Depending on learning style of your students, either print a class copy of the recipe directions or make a copy for each student
 - *For students that are visually overwhelmed, cut apart the recipe and mount each step on a separate index card*
